Radiosonde and Radiowind**

for Indian stations

(1971-2000)

**OBSERVATION TIME
1730 IST**

ISSUED BY
UPPER AIR SECTION
OFFICE OF THE
ADDITIONAL DIRECTOR GENERAL
OF METEOROLOGY (RESEARCH)
INDIA METEOROLOGICAL DEPARTMENT
PUNE - 411 005

Sale of Publication:

Recently, Upper Air Climatological Section, O/o ADGM(R), India Meteorological Department, Pune has published the following publication,

“ Monthly Normals of Radiosonde And Radiowind for Indian stations (1971-2000) – 1730 IST ”

The above mentioned publication on normals of Radiosonde and Radiowind has been updated for the data period 1971 - 2000 for 35 Indian stations for 1200 UTC (1730 IST). The present publication contains altitude of standard pressure levels (mean, highest and lowest), normal values of upper air temperatures (mean, highest ,lowest and dew point), resultant wind direction, resultant wind velocity, scalar wind speed at standard pressure levels. Besides, it also contains normal values of pressure and altitude of freezing level, pressure, altitude and temperature of tropopause.

The e-book (CD ROM) of this publication is available for sale as per the rate as follows;

SN.	Items	₹	\$	£
1	CD ROM	800	160	100
2	Postage & Handling	100	20	12

The demand Draft should be drawn in favour of,

[“The Additional Director General of Meteorology \(Research\), Pune-411005”](#)

payable at any **Nationalized Bank** at **Pune**.

The request for above mentioned publication may be addressed to :

The ADGM(R),

India Meteorological Department,
